Redbridge Alternative Provision

Behaviour Policy

Rationale;

The aim of the behaviour policy at RAP is to support students in developing skills which enable them to manage and control their behaviour. We aim to give students the opportunity to experience positive relationships with adults and peers, to raise self-esteem and to develop a sense of personal control.

At interview our expectations regarding behaviour are explained to students. Students have to sign the non-negotiable behaviour contract at the start of their placement at RAP.

A priority for staff is to minimise conflict and confrontation whilst challenging unwanted behaviour. RAP seeks to create an environment in which effective teaching and learning can take place.

Our principles are based on;

- Respect for yourself
- Respect for others
- Respect for the environment

All the people at RAP should;

- Allow teaching and learning to take place.
- Treat others with respect.
- Behave with the health and safety of others in mind.
- Treat the school environment and equipment with care.

Our schedule of sanctions and rewards is identified on the following pages and is clearly displayed throughout RAP;
